

MODEL NUMBER: BW-1000

AVENGER

CONGRATULATIONS on your purchase of the *AVENGER* remote vehicle alarm. You now own the most reliable security system available today. It is made in the U.S.A., designed by leading experts in the security industry, and utilizes the latest state of the art technology.

The *AVENGER* comes with two 1-button remotes, flashing L.E.D., and many convenience features. With minimum care and upkeep, this alarm will give you many years of service and protection. The following information will help you to get the best from your system.

A) MANUAL OPERATION

1) TO ARM – Press the button. You will hear 1 chirp and the L.E.D. supplied with your system will flash slowly indicating your system is armed.

2) TO DISARM – Press the button. You will hear 2 chirps and the L.E.D. will no longer flash indicating the system is disarmed.

B) DOOR LOCK AND UNLOCK – If your vehicle has electronic door locks, with the optional BWS-340 Door Lock Module, the doors will lock when the system is armed, and unlock when system is disarmed.

C) AUDIO WARNING INDICATOR – If you hear 3 chirps (instead of the normal 2 chirps) when disarming, it means either an entry attempt was made, or your vehicle was “bumped” hard enough to cause the alarm to trigger. Check your vehicle to make sure everything is working and there is no damage.

D) REMOTE PANIC – As an added safety feature, your *AVENGER* system has a remote panic feature which will trigger your alarm from a substantial distance away. Press the button (approximately 3 seconds) until siren sounds. To stop the siren, press the button again.

E) AUXILIARY FEATURES – With optional Black Widow accessories (part numbers are listed on the back of this card), you can add electronic door locks (see Section B above), starter disabler, glass break sensor, field disturbance sensor for car interior, battery back-up, automatic window roll-ups and more. **Ask your dealer to explain these and other options or accessories available to you.**

The following information is found on the label affixed to the control module. If the information is not on this card, see your dealer.

LIFETIME LIMITED WARRANTY

The Black Widow Division of DLC, Inc. warrants to the original purchaser that the vehicle alarm system purchased will be free from defects in workmanship.

If it is determined that a defect exists, at our option, we will repair defective parts or replace the system. If product is defective within one (1) year from date of purchase, item will be repaired or replaced at no cost to original purchaser. If product is defective after one (1) year from date of purchase, ship defective unit prepaid to Black Widow Division, DLC, Inc. along with a \$20.00 cashier's check or money order to cover cost of handling.

Proof of purchase by the original owner must accompany warranty request before service is rendered.

This warranty covers normal use. It does not cover damage from alteration, misuse, abuse, accident, improper installation or maintenance. Warranty does not cover transmitter batteries or cases. This warranty gives you specific legal rights and you may have rights which vary from state to state. If you have any questions, contact your authorized Black Widow dealer.
